Your Values Compass

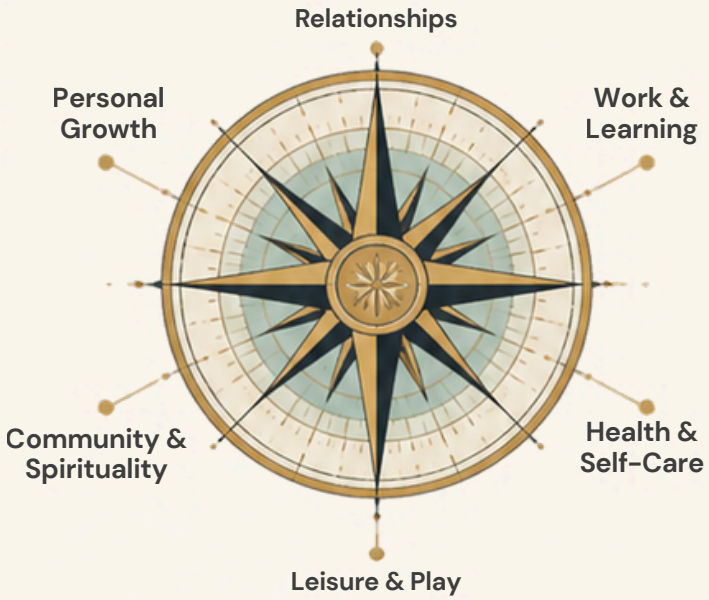

Finding direction when life feels uncertain

1. WHAT ARE VALUES?

Values are chosen qualities of action - the kind of person you want to be and how you want to treat yourself, others and the world. Goals can be completed and checked off, values are ongoing directions you never finish.

Example: *Value = Connection. Goal = Dinner with a friend Friday. Today = Put my phone down and really listen.*

2. THE COMPASS

3. EXAMPLE VALUES

Kindness
Honesty
Courage
Curiosity
Connection
Compassion
Creativity
Patience
Fairness
Adventure
Gratitude
Presence

4. CHECK YOUR BEARINGS

	My value here	Importance (0-10)	Living it lately (0-10)
Relationships			
Work & Learning			
Health & Self-Care			
Leisure & Play			
Community & Spirituality			
Personal Growth			

The biggest gaps show where to point your compass.

5. ONE SMALL STEP THIS WEEK

One small action that moves me toward what matters: _____

_____

What might show up (thoughts, feelings, urges) and how I'll make room for it: _____

_____

_____

Rooted in Acceptance and Commitment Therapy (ACT): you don't have to feel ready or wait for difficult feelings to pass to move toward what matters.
Ask: Is this taking me toward or away from the person I want to be?
